## **Algorics analytics solution *acuity* selected by US CRO Lexitas to drive optimized clinical operations services**

### **Ophthalmology-focused CRO adopts the *acuity* solution for risk based monitoring**

**Houston, TX, USA, For Release: 8<sup>th</sup> September 2015.** Algorics, a provider of clinical analytics solutions and software for the global life sciences industry, today announced that *acuity*, its analytics solution for risk based monitoring, has been adopted by Lexitas Pharma Services, Inc. The US Ophthalmology-focused CRO will leverage the *acuity* solution to bring together internal and external data sources in order to provide analytics dashboards and alerts to give the leadership team a real-time picture of key operational parameters and KRI (key risk indicators) and allow operational teams to more easily manage trial performance.

---

**Lexitas Quote:** "As Lexitas grows we continue to look for innovative ways to improve efficiency without compromising the high quality and tailored services our clients count on. Implementing *acuity* will provide us with a timely and comprehensive view of how our portfolio of trials is performing, as well as enable us to manage individual trials in the most effective way," said Chad Ice, President, Lexitas.

**Algorics Quote:** Nick Hargaden, President, Algorics said, "We are delighted that Lexitas has chosen *acuity* to provide centralized insights into the clinical trials they manage, thus driving operational effectiveness and resource savings."
