

TUESDAY 8th OCTOBER 2019 – Conference Day 1

Opening Session

09:00	Conference introduction Mark Lockie, Managing Director, Science Media Partners, United Kingdom			
09:10	Opening Keynote Pasan Ratnayake, Controller General, Department of Immigration and Emigration, Sri Lanka			
09:30	Co-creating a trust ecosystem with Singapore's National Digital Identity Kwok Quek Sin, Senior Director, National Digital Identity Programme, GovTech, Singapore			
09:50	Morning Keynote James Jimenez, Director and Spokesman, Commission on Elections, Philippines			
10:10	Question and answer session			
10:20	Networking break & exhibition viewing			
	SDW	Planet Biometrics	Digital:ID	Knowledge Theatre
11:10	Successful Secure Credential Design	Identity for Aid and Sustainable Development	Digital Identity on the Blockchain	Identity Myth Busters
	Last year APAC represented more than 60% of the global market for personal ID credentials. In this session experts ask how documents should be designed to ensure security and which features are needed to maintain the integrity of credentials.	This session will explore the challenges and opportunities for the use of new technologies in humanitarian operations. What can be done to leverage digital identity and biometrics to deliver sustainable development?	The phenomenon of blockchain has the power to transform identity. This panel will explore the impact of new cryptocurrencies, establishing regulatory frameworks to allow blockchain to achieve its potential, and its place in self-sovereign identity.	ID Crowd & friends will debunk common myths and misunderstandings of digital identity by exploring misconceptions with reference to actual scenarios taken from experiences delivering digital identity in the real world.
	Session Introduction	Session Introduction	Moderator: Pam Dixon , Founder and Executive Director, World Privacy Forum , United States	David Black , Consultant, ID Crowd , United Kingdom
11:15	Tunji Durodola , Technical Consultant, National Identity Management Commission , Nigeria	The future of vulnerability (and why Digital ID is key) Amanda Robinson , Head of Social Innovation, Australian Red Cross , Australia	David Davies , Founder and CEO, AgUnity , Australia Fabian Eberle , Co-Founder, Keyless Technologies , Singapore	Colin Wallis , Executive Director, Kantara Initiative , United Kingdom

11:30	Design of secure travel credentials R Rajeshkumar , Chief Executive, Auctorizium , Singapore	Natasha Beschorner , Senior Digital Development Specialist, World Bank , Philippines	Damian Mifsud , CEO, QGen Group and KnowMeNow , Malta	
11:45	Libor Šustr , Technical Director, Optaglio , Czech Republic	Mohammed Murad , Vice President, Global Business Development and Sales, Iris ID , United States	Steve Ng , Vice President, Digital Platform Operations, Mediacorp , Singapore Giang Le Ngoc , Legal and Policy Specialist, Ministry of Justice , Vietnam	
12:00	Question and answer session	Question and answer session	Question and answer session	
12:10	Lunch and exhibition viewing			Solutions Showcase
				<p>Voice authentication, speaker verification, fraud detection - all in one Paul Morris, Business Development Manager, Phonexia, Czech Republic</p> <p>Upping the security game with continuous authentication – Utilising behavioural and biometric capabilities Leonard Cheong, Managing Director, AdNovum, Singapore</p> <p>Secure identification documents enabled by visionary substrate material concepts Markus Mingenbach, Vice President Specialty Films, Asia Pacific, Covestro, Hong Kong</p> <p>Speaker TBC, Pepper & Ink Technologies, India</p> <p>Question and answer session</p>
Afternoon Keynote Session				
13:15	Cornerstones of e-Estonia Margus Arm , eID Domain Manager, Estonian Information System Authority , Estonia			
13:35	Thailand digital identity case: An amazing collaboration to solve common problems Bonsoon Prasitsumrit , Chief Executive Officer, National Digital ID , Thailand			
13:55	Question and answer session			

14:00	Roundtables			
	<p>Online - always and everywhere? - Integrated and innovative approaches towards bridging physical & digital aspects of secure document design Moderator: Liew Chee Khai, Sales Manager, OVD Kinegram Asia Pacific, Singapore</p> <p>Getting mobile biometric authentication into the mainstream...what will it take? Moderator: Jennifer Pham, Sales Director APAC, Aware, United States</p> <p>Should centralising data into single stores be outlawed in light of increased data breach reporting? Moderator: Colin Wallis, Executive Director, Kantara Initiative, United Kingdom</p> <p>Cooperation and innovation in document security Moderator: Andre Ten Caat, Former Senior Document Expert, Expertise Centre Identity Fraud and Documents, Royal Netherlands Marechaussee, and Owner, TenDoc, The Netherlands</p>			
14:40	Session changeover			
14:45	Building Effective Identity Foundations	Enabling Seamless Travel	Combating Digital Identity Fraud	Biometrics in the Future of Healthcare
	<p>This session will explore the underlying principles, evolving definitions and current approaches to legal identity. Our speakers will give their perspectives on how secure credentials can lay the necessary foundations to providing identity for everyone.</p>	<p>The number of air passengers is expected to double over the next two decades, and Asia is expected to account for 40% of passenger traffic by 2036. This session looks at how biometrics can be used to create a seamless and secure end-to-end passenger experience.</p>	<p>With one in five people in Asia-Pacific having directly encountered identity theft, our expert speakers will unpack the latest initiatives in preventing digital identity fraud, with a focus on cyber breaches, synthetic IDs, eligibility fraud and cybercrime on the darknet.</p>	<p>Biometric solutions have been tipped as the future for healthcare, but how can this be made a reality? Presentations focus on speeding up adoption, the role of mobile-enabled platforms and use of biometrics to secure medical settings.</p>
	<p>Session Chair: Sanjay Dharwadker, Head of Global ID Consultancy, WCC Smart Search & Match and Expert, ICAO Implementation & Capacity Building Working Group, Netherlands</p>	<p>Session Chair: Professor Raymond Wong, Independent Expert on Identity Management and Border Control, Hong Kong</p>	<p>Session Chair: David Black, Consultant, ID Crowd, United Kingdom</p>	<p>Session Introduction</p>
14:50	<p>It's Identity Jim, but not as we know it Joanne Knight, Senior Advisor, Identity Standards, Department of Internal Affairs, New Zealand</p>	<p>An initiative to create a seamless, efficient and secure end-to-end passenger experience Younkyung Kim, Regional Manager, Airport, Passenger, Cargo & Security, Asia Pacific, International Air Transport Association, Singapore</p>	<p>The relationship between cyber breaches and digital identities David Black, Consultant, ID Crowd, United Kingdom</p>	<p>Why is biometrics in the future of healthcare & not in the present? Terry Hartmann, Vice President (Asia Pacific), Cognitec, Australia</p>
15:00			<p>Identity fraud prevention and detection in the Australian health and welfare sector Damian West, General Manager, Business Integrity Division, Department of Human Services, Australia</p>	
15:05	<p>Digital identity for development: World Bank perspectives on trends and lessons Jonathan Marskell, Operations Officer, Identification for Development Initiative, World Bank, Thailand</p>	<p>Doorstep biometric data capturing for seamless digital transformation Dr Nayana Dehigama, Founder Chairman and Managing Director, EPIC Technology Group, Sri Lanka</p>	<p>Identity, cybercrime and the darknet</p>	<p>Innovative mobile solutions linking health and identity Devika Daga, AI Practitioner, Humane Technologist</p>
15:15				

15:20	1 billion people are without legal identity - what is the UN doing? Niall McCann , Policy Advisor and Project Manager, Legal identity, United Nations , United States	Paul Cross , Head of Border Management Sydney Practice, SITA , Australia	Mohsin Choudhury , UK Head of Information Security, Bank of Ireland UK , United Kingdom	Transforming hospitals with facial recognition Noriaki Takamura , Vice President of Sales and Business Development, APAC, RealNetworks , Japan
15:30			Facial Presentation Attack Detection; fundamental concepts Rob Mungovan , Vice President, Biometrics, Aware , United States	
15:35	Open Standards Identity API for National ID Ecosystems: Assuring interoperability and harmonization for sovereign ID programs Debora Comparin , Chair ID4All Workgroup, Secure Identity Alliance , France	Enhancing customer experience, efficiency and security at Auckland Airport Tim Ferris , President, Asia Pacific, IDEMIA , Singapore		Question and answer session
15:45			The rise of synthetic IDs: Mitigating digital identity fraud to protect your business Kevin Lee , Trust & Safety Architect, Sift Science , United States	
15:50	Question and answer Session	Question and answer Session		
16:00			Question and Answer Session	
16:05	Networking break & exhibition viewing			
16:15				
				Digital Identity Standards
				With national and international standards on identity ever-evolving, how do we ensure consistency, interoperability and compatibility?
				Moderator: Colin Wallis , Executive Director, Kantara Initiative , United Kingdom
16:35	Countering Document Fraud	Responsible Implementation of Biometrics	Considerations for Introducing Smart Citizen IDs	David Black , Consultant, ID Crowd , United Kingdom
	Around a third of detected counterfeits are forged passports and around 15% are altered authentic passports. This series of presentations will look at what is being done to combat counterfeiting, secure document alteration and identity theft.	In this session two leading associations at the heart of the biometrics community will discuss recommended best practice for the implementation of biometrics and help clear up some of the myths around use of the technology, that have contributed to heated debate.	Governments are increasingly introducing smart IDs for better interaction with their citizens. Hear how smart IDs can be brought from development to implementation, as well as the next steps for achieving the full potential of national digital identities.	Andrew Churchill , Independent Identity and Cyber Security Consultant, United Kingdom
	Session Chair: Andreas Schilling , Head of Sales Government Documents, OVD Kinegram , Switzerland	Session Introduction	Session Introduction	Joanne Knight , Senior Advisor, Identity Standards, Department of Internal Affairs , New Zealand
16:40	Why is evidence of identity vital for secure credentials? Sanjay Dharwadker , Head of Global ID Consultancy, WCC Smart Search &	Biometrics in identity: Building inclusive futures and protecting civil liberties Speaker TBC , Secure Identity Alliance	Exploring the evolution of digital ID across the world – A digital identity ecosystem comparison Speaker TBC , Secure Identity Alliance , France	

16:50	Match and Expert, ICAO Implementation & Capacity Building Working Group , Netherlands	Public Perceptions and Good Practice: How to Implement Biometrics Responsibly		
16:55	The fight against the forger Andre Ten Caat , Former Senior Document Expert, Expertise Centre Identity Fraud and Documents, Royal Netherlands Marechaussee , and Owner, TenDoc , The Netherlands	Moderator: Isabelle Moeller , Chief Executive, Biometrics Institute , United Kingdom Paul Cross , Director & Head of Future Direction Group, Biometrics Institute and Head of Border Management Sydney Practice, SITA , Australia	Speaker TBC	
17:10	Latest industry concepts to enable secure ID cards & passports Henry Leung , Market Development Manager, ID Security, Asia Pacific, Covestro , Hong Kong	Pam Dixon , Member, Privacy Expert Group, Biometrics Institute and Director, World Privacy Forum , United States Ted Dunstone , Founder, Biometrics Institute and Managing Director, Biometix , Australia	Instilling digital citizenship skills through education: A Malaysian perspective Mustaffa Bin Ahmad , Senior Vice President, Outreach and Capacity Building, CyberSecurity Malaysia, Ministry of Communications , Malaysia	
17:25	Question and answer session	John Rule , Managing Director, Brands Australia and Global Lead, FRT Biometric Image Capture ISO , Australia	Question and answer session	
17:30	Exhibition drinks			

WEDNESDAY 9th OCTOBER 2019 – Conference Day 2

Keynote Session

09:00	Keynote introduction Mark Lockie , Managing Director, Science Media Partners , United Kingdom				
09:05	Morning Keynote Jonathon Thorpe , Assistant Secretary and Head of Digital Identity - GovPass, Digital Transformation Agency , Australia				
09:25	Harmonisation of databases as a panacea for the use of questioned breeder documents Nuha Kutana Tanko , Deputy Comptroller, Nigeria Immigration Service , Nigeria				
09:45	Morning Keynote Bimal Gandhi , Chief Executive Officer, Uniken , United States				
10:05	Question and answer session				
10:15	Networking break & exhibition viewing				
10:30				Knowledge Theatre	
				Document Authentication - Emerging Concepts	
				SDW	Planet Biometrics
	Bridging the Gap: Physical Credentials in the Digital World	Innovations in Biometric Payments	Smart Proofing and Authentication	In the age of realistic fakes, the need to authenticate a document has never been stronger, join experts as they unpack the latest concepts in this space.	
	In a world that is becoming increasingly digitalised, experts consider what this means for the future of the physical document. How can technology bridge the gap and allow physical credentials to interact in a digital world?	A recent study shows that 52% of banks using biometrics are located in Asia. As biometric payments continue to rise, discover the latest solutions and innovations and their impact on the banking and retail sectors.	In an increasingly digital world, there is a greater need for the correct identification of online consumers. This presents an opportunity for effective and secure digital identities. What does the future hold for identity proofing and authentication online?		
11:00				Bruce Ackerman , Executive Vice President of Global Sales, Acuant , United States	
	Session Introduction	Session Chair: Linden Dawson , Senior Customer Success Manager, ForgeRock , Australia	Session Chair: Colin Wallis , Executive Director, Kantara Initiative , United Kingdom	Andreas Schilling , Head of Sales Government Documents, OVD Kinegram , Switzerland	
11:05	Tunji Durodola , Technical Consultant, National Identity Management Commission , Nigeria	Sensor-on-card biometrics: Current overview Tom Rapkoch , Director, Global Chip Product, Visa , United States	Everyone matters: Enabling identity for everyone Régis Bauchi , General Manager, Identity Services, Australia Post , Australia	Panellist TBC	
11:20	Integrated and innovative approaches towards bridging physical & digital aspects of secure document design Sascha Fuls , General Manager, OVD Kinegram Asia Pacific , Singapore	The future is now: What do biometrics, AI, robotics and commerce have in common? Johnny Ang , Regional Senior Director, Innovation and Partnership, Wirecard Labs , Singapore	Beyond passwords: FIDO and the future of strong authentication Andrew Cheng , FIDO Alliance Representative		
11:35	Time is Money: How RFID and Blockchain combine for digitization without dematerialization	Innovation with best practice for biometrics in payments Grace Yang , Business Development Director, Asia Pacific, IDEX Biometrics ,	So, you think you can two factor? Nishant Kaushik , CTO, Uniken , United States		

	Mitchell De Young , Head of Digital Authentication, Linxens , Singapore	China and Ethan Fu , Technical Marketing Director, Bank Card Test Center , China		
11:50	Question and answer session	Question and answer session	Question and answer session	
12:00	Lunch & exhibition viewing			The Future of Identity and Access Management
12:10				Identity and Access Management professionals will discuss how to meet challenges around governance, mitigating cybersecurity risks, and keeping up with IAM in an increasingly mobile-dominated world.
				<p>Junis Alico, Project Lead, American Society for Microbiology, United States</p> <p>Adam Bradley, Chief Digital Architect, Unify Solutions, Australia</p> <p>Yusuf Khan, Solutions Architect, Digital Identity and Trusted Services, Smart Dubai, United Arab Emirates</p> <p>Guy Marong, Director, Global Information Security Officer, Sony Electronics, Singapore</p> <p>Siva Venkat, Senior IT Audit Manager, Prudential Corporation Asia, Singapore</p>
12:55				
13:00	Afternoon Keynote Session			
13:05	Key privacy and identity trends: A global update Pam Dixon , Founder and Executive Director, World Privacy Forum , United States			
13:25	India's experience with identity linked benefit transfers Arun Sharma , Director, DBT Mission, Cabinet Secretariat , Government of India , India			
13:45	Question and answer session			
13:50	Session changeover			

13:55	Strong Identity – Strong Borders	Facing Up to Facts: Facial Recognition in Focus	The Role of Digital Identity in the Future of Financial Services
	For borders to be secure, an effective identity ecosystem between countries is crucial. This session focuses on mitigating risk, correct requirements for MRTDs and combating fake identities at the border.	The debate around use of facial recognition is perhaps the most lively in the world of biometrics. Explore best practice, how to ensure accuracy and the ethical implications.	In the context of open banking, digital onboarding and the emergence of blockchain, what more can be done to create an efficient and engaging customer experience while also maintaining trust.
	Session Chair: Professor Raymond Wong , Independent Expert on Identity Management and Border Control, Hong Kong	Session Chair: Anthony Hay , Independent Consultant, HayTan Consulting , Singapore	Session Chair: David Black , Consultant, ID Crowd , United Kingdom
14:00	Kiss the border Professor Raymond Wong , Independent Expert on Identity Management and Border Control, Hong Kong	Facial recognition: The good, the bad, the future Anthony Hay , Independent Consultant, HayTan Consulting , Singapore	Victoria Richardson , Chief Strategy Officer, Australian Payments Network , Australia
14:15	Who's Wally? Even Sandum , Document Examiner, National Police Immigration Service , Norway	From nothing to hide to nowhere to hide - facial recognition and civil liberties Michael Cope , President, Queensland Council for Civil Liberties , Australia	Karthik Ramanathan , Senior Vice President, Cyber and Intelligence (C&I) Solutions, Asia Pacific, Mastercard , Singapore
14:30	Correct photo capture requirements: Critical to ensure accurate Smart Gate Boarder and enrolment matching John Rule , Managing Director, Brands Australia and Global Lead, FRT Biometric Image Capture ISO , Australia	Protecting identities in the age of automated face recognition Gil Perry , Founder and CEO, D-ID , Israel	Digital Identity on the Blockchain - reusable, secure and regulated Damian Mifsud , CEO, QGen Group and KnowMeNow , Malta
14:45	Risk Mitigation at the Border – a best practices approach to identity authentication Bruce Ackerman , Executive Vice President of Global Sales, Acuant , United States	Analyzing face recognition contemporary myths Terry Hartmann , Vice President (Asia Pacific), Cognitec , Australia	The role of digital identity in the future of customer experience for financial services Katherine Noall , CEO, Sphere Identity , New Zealand
15:00	Question and answer session	Question and answer session	Question and answer session
15:05	Networking break & exhibition viewing		

15:35	Building Identity Services for All	Trusted, Privacy-Enhancing Identity	
	How do we build inclusive identity services to ensure everyone benefits, including those living in rural areas and other hard-to-reach areas of the world, and what role does digitalisation play?	With recent high-profile security breaches compromising trust, this session asks what the next steps are for guaranteeing an individual's privacy, at the same time providing security and giving consumers control of their own data.	
	Session Introduction	Session Introduction	
15:40	Digital ID - an agent for change Abhishek Ranjan , Chief Technology Officer, CSC E-Government Services, Ministry of Electronics and Information Technology, India	Amos Toh , Senior Researcher, Artificial Intelligence and Human Rights, Human Rights Watch , United States	
15:55	What identity means and how it can create identity inclusion Francesco Cardì , Chief Strategy Officer, Onfido , United Kingdom	Colin Wallis , Executive Director, Kantara Initiative , United Kingdom	
16:10	Connecting the last mile David Davies , Founder and CEO, AgUnity , Australia	Richa Arora , Director, National Cyber Strategy Lead, Deloitte , Australia	
16:25	Question and answer session	Question and answer session	
16:30	Closing remarks Mark Lockie , Managing Director, Science Media Partners , United Kingdom
